For Sample Type use **S** for soil, **P** for Plant, **W** for water, **F** for fertilizer, **O** for other material

The following is a partial list of our most requested tests. See our price list for all available tests or call for any special requirements.

Soil Tests

Code	Description	Price
S1	Complete Analysis Organic matter, extractable acidity, ammonium nitrogen, active cation exchange capacity, percent acid saturation, percent base saturation, soil pH, extractable phosphorus, potassium, calcium, magnesium, sulfate sulfur, boron, copper, iron, manganese, zinc, calcium/magnesium ratio, magnesium/potassium ratio, electrical conductivity	\$25.00
S2	Partial Analysis Extractable acidity, soil pH, extractable phosphorus, potassium, calcium, magnesium, sulfur, boron.	\$18.00
S3	Partial Analysis Soil pH, extractable acidity, calcium, magnesium, potassium, phosphorus, ammonium nitrogen.	\$14.00
S4	Partial Analysis Soil pH, extractable acidity, calcium, magnesium.	\$8.00
S5	Individual Analysis Any one of the above determinations.	\$5.00
ST	Soil Texture Hydrometer method –Sand, Silt, Clay	\$18.00
SF	Sand Fractions 6 Screens	\$18.00

Plant Tests

Code	Description	Price
P1	Complete Analysis Total nitrogen, phosphorus, potassium, calcium, magnesium, sulfur, boron, copper, iron, manganese, sodium, zinc.	\$25.00
P2	Partial Analysis Nitrogen, phosphorus, potassium, Calcium, magnesium, sulfur, boron.	\$20.00
P3	Partial Analysis Phosphorus, potassium, calcium, magnesium, copper, iron, manganese, zinc.	\$18.00

Water Tests

W1	Complete Analysis Ammonium nitrogen, phosphorus, potassium, sodium, calcium, magnesium, sulfate sulfur, boron, copper, iron, manganese, zinc, chloride, electrical conductivity, pH, carbonate, bicarbonate.	\$40.00
W2	Partial Analysis Calcium, magnesium, sodium, chloride, electrical conductivity, sulfate sulfur, pH.	\$25.00

Fertilizer Tests

F1	NPK analysis Total Nitrogen, available phosphorus, available potassium.	\$52.00
